# 02 | PRODUCE

**Eldex is recognised as a market leader in specific market categories and prides itself on its ability to source products at internationally competitive rates whilst offering high levels of innovation, such as the introduction of Quik Star roll bags and dispensers.**

The company has grown rapidly supplying a highly successful combination of locally manufactured and imported products across all market categories.

This has enabled Eldex to provide a wide range of Intelligent Packaging Solutions to our customers and places Eldex in a leadership position in the supply of all packaging solutions in both products and services.

## SEAFOOD

---

# 04

**Handling & Storage Instructions:**

- Refrigerate as soon as possible
- You may wish to use a chilly bin on the way home
- Once at home remove from the plastic bag and store in a sealed container

**Recommendation:** For optimum quality, use or freeze within 1 day of purchase

# 04 | SEAFOOD

**Elldex is one of the major suppliers to the seafood sector, offering both primary and secondary packaging.**

With a wide range of offerings, such as shatter sheets, liners, bags, form fill and seal, laminates and vacuum packs suitable for fish, mussels and other seafood, Elldex is able to accommodate most packaging requirements in this industry.

## LINERS & SACKS

---

# 06

# 06 | LINERS & SACKS

**Elldex has a long history of supply to municipal councils for rubbish collection systems, supermarkets for retail packs of rubbish bags for domestic use, indeed all types of bags and films for safe, hygienic, reliable rubbish and waste disposal.**

How to deal with so much rubbish?

In the first place, you need consistent quality (you really don't want these babies to break), reliable supply chain (you just can't afford to run out of rubbish bags) and scale, because society still needs millions of rubbish bags!
